

INTRODUCTION

For: Art Director or Marketing Manager

Subject: Creative Services – Design + Illustration

Focus: Design and Marketing for Educational Institutions – Universities and Colleges

Hello,

My name is Travis Tom and I am an independent designer and illustrator working from a home studio based in Augusta, GA. I earned my BFA in graphic design from the University of Georgia and I am reaching out to select colleges, universities and educators to introduce myself as a vendor for creative services for print, web and new media. Projects may include logo design, stationery systems, flyers, infographics, icons, illustrations, posters, slide deck presentations, brochures, direct mail, annual reports, postcards, web and social media banners and more.

I have been working as an independent contractor since 2009 and have been working with companies, small businesses and some universities and colleges from around the country. My first design job was with The Medical College of Georgia (now Augusta University Health) as an in-house designer. The past few years I have contracted with Augusta University and AU Health on various assignments for different departments. In 2021, I began working on projects for The Savannah River Ecology Laboratory – University of Georgia on ecology fact sheets and a newsletter redesign called, IMPACTS.

A few years ago I was contracting with a few universities through Chartwells for their dining services including UC Berkeley, Southeast Missouri State University, Angelo State University, University of Houston and Rockhurst University – all collaboration performed remotely.

Some of my work is nationally recognized and published in a few magazines and books. Please review my online portfolio to see more of my work.

www.tntomdesign.com

My icon work is published in a few books including the university text book, "Graphic Design Solutions", by Robin Landa (2013) and "1000 icons, symbols + pictograms" by BlackCoffee for Rockport Publishers (2006). My poster design, "Save the World", was recently selected (June 2021) as 1 of 100 designs from around the world for a global open call for artwork promoting the #Vaccinated campaign sponsored by Amplifier.

Thank you for your time and consideration. Referrals are appreciated.

Best Regards,

Travis Tom

American Alligator

Alligator mississippiensis

Alligators are cold-blooded, so they often bask in the sun to warm up. They also use this strategy to ambush prey animals that mistake them for a dried-up log.

Authors@KGASREL

Alligators have a bad reputation that is largely undeserved and not indicative of their natural behaviors. Alligator attacks are uncommon and fatalities extremely rare, numbering one or none annually since the 1970s.

Alligators have an incredible homing ability and, if relocated, will return to where they were captured. Relocating alligators does not solve the problem. Alligators habituated to human feeding become nuisance animals and must be euthanized by a licensed alligator control agent.

Authors@KGASREL

American alligators (*Alligator mississippiensis*) inhabit the southern United States along the Atlantic Coast from Florida to North Carolina and west along the Gulf Coast into Texas and southeastern Oklahoma. In South Carolina, alligators are restricted to the Coastal Plain regions.

The American alligator is Federally protected by the Endangered Species Act as a Threatened species, due to their similarity of appearance to the American crocodile. The U.S. Fish and Wildlife Service pronounced the American alligator fully recovered in 1987.

Alligators and crocodiles are related. However, alligators have rounded snouts, while most crocodile species have longer, pointed snouts. Also, crocodiles occur only in tropical and subtropical areas such as southern Florida, while alligators live in somewhat cooler climates.

Alligators favor freshwater habitats such as swamps, wetlands, rivers, lakes and ponds.

Alligators and their relatives are the last of the living reptiles that were closely related to dinosaurs, and their closest kin are modern birds.

Alligators are long-lived animals whose life spans can exceed 60 years. Alligators are cold-blooded, meaning that they are ectothermic animals that cannot regulate their own body temperature, but assume the temperatures of their surrounding environment.

Alligators dig wallows to stay cool in the summer and warm in the winter. These wallows serve as water sources during dry periods and refuges for fish, amphibians, reptiles, and insects.

Snake Safety in South Carolina and Georgia

Garter Snake

Authors@KGASREL

Cottonmouth Snake

Authors@KGASREL

Snake Facts

- Most snake species in the Southeast are harmless and all bite only in defense.
- Risk of snakebite is exaggerated. Most bites are easily avoided with common sense and basic safety.
- Snakes do not intentionally chase people. They are much more afraid of us than we should be of them.
- Venomous snakes use their venom primarily to kill prey. They use it as a defense only when they are harassed or handled. Many snake species are essential predators that control rodents and other pests.
- Wear appropriate attire (long pants, closed-toed shoes), watch where you step and do not harass, capture, or attempt to kill snakes.
- Always watch where you step and place your hands.
- At night, always use a flashlight.
- If you are walking in long grass or thick brush, wear heavy boots and/or snake leggings.
- Never pick up a snake unless you are positive it is a harmless species.
- If you see a snake, maintain a safe distance (greater than six feet)—most snake bites occur when people try to capture or kill snakes.
- Familiarize yourself with local venomous and nonvenomous snakes—for information, see srel.uga.edu.

In Case of Snakebite

- Keep the victim calm and reassured. Remove all jewelry, bracelets and watches from the affected area
- Time is the most important factor for venomous snake bites. The quicker the victim receives medical treatment, the less damage to the affected tissue.
- Contact local emergency services (Dial 911) for transport to a local hospital emergency room. Request that they contact an attending physician with experience in treating venomous snakebites.
- Reduce physical exertion by the victim. This reduces blood flow to the affected area and minimizes the amount of the venom in the wound.
- Do not cut or apply ice to the affected area or use constricting bands or tourniquets as this may worsen the damage to healthy tissue.
- Take note of the snake's size and appearance (body pattern and color) or take a cell phone photo from a safe distance.
- Do not attempt to capture or kill the snake. Capture efforts can result in multiple snakebites or multiple victims.
- All pit viper bites (rattlesnakes, cottonmouth, copperhead) are now treated with CroFab antivenom. Only the coral snake bite requires different treatment.
- Remain calm and await emergency assistance. If in a remote location, safely transport the victim to a hospital or an arranged meeting spot for emergency transportation.

RESEARCH

SREL YouTube

The latest video created by the Outreach team features special guests Linda Lee (SREL) and Charlie Davis (USDA-FS). The recording took place in a remote area on the SRS. After introductions were completed, the race was on to see if the two cameras could keep up with the enthusiastic identification of plants and other aspects of this unique habitat.

Special thanks to Linda for allowing us this opportunity. We appreciate highlighting collaborative efforts between organizations and showcasing sound ecological stewardship on the SRS.

Join us as we explore this rare plant community and learn about its importance as a seed bank for the surrounding forest. ■

The Hull Experience
Market-Driven Concentrations

Developing the “Hull Experience” by Meeting the Needs of Students and the Business Community

To support the University’s efforts to transform into a comprehensive research university with projected enrollment growth, the Hull College developed distinctive and marketable programs that will attract and retain students. The Hull College leadership met with local and regional industry leaders while the faculty researched state and nation trends to develop innovative programs that meet the needs of the market.

After several months of research and planning, “The Hull Experience” was born and a new undergraduate business curriculum was designed. Starting Fall 2018, students enrolling in the Hull College will experience a portfolio of curricular and co-curricular requirements to provide them with the necessary hard and soft skills that are in high demand from employers across all industries.

CURRICULUM = PORTFOLIO FOR SUCCESS

Introduction to Business and Professional Skills Professional Selling Project Management Operations Required Internship Co-Curricular Programming

“The Hull Experience” prepares students for a successful career upon graduation by equipping students with both business knowledge and professional skills through traditional lectures, experiential activities, and engagement with the business community.

Since market research found that all employers are seeking strong interpersonal and communications skills, project management skills, and the ability to streamline processes to ensure efficient delivery of goods and services, the following courses were added to the curriculum: *Introduction to Business and Professional Skills, Professional Selling, Project Management, and Operations Management*. In addition to these courses, students will have the opportunity to pursue concentrations, certificates, and minors in healthcare management, digital marketing, financial services, hospitality, analytics, and more.

“The Hull Experience” will begin with students enrolling in the *Introduction to Business and Professional Skills* class where they are exposed to industry professionals and business faculty to better understand career options and gain the professional skills needed to be successful in business. Then students will apply their foundational business knowledge and professional skills as they complete the upper-level business core courses and complete a required internship. Requiring students to complete at least one internship prior to graduation will assist students with gaining experience in their fields of interest while also gaining the necessary exposure to professional business environments prior to the start of their careers. Lastly, in addition to business courses, co-curricular opportunities such as networking events, business showcases, and employer site visits will also be provided to support the knowledge the students are learning in the classroom.

MARKET DRIVEN CONCENTRATIONS, CERTIFICATES & MINORS

ACCOUNTING · HEALTHCARE MANAGEMENT · DIGITAL MARKETING
· SERVICES · HOSPITALITY · ECONOMICS ·
PROJECT MANAGEMENT · MANY MORE!

Hull College
Accreditation Update

The Hull College of Business is accredited by the Association to Advance Collegiate Schools of Business (AACSB), the world's largest business education alliance. The mission of AACSB International is "to foster engagement, accelerate innovation, and amplify impact in business education" and as a result, AACSB emphasizes continuous quality improvement across the three primary dimensions of innovation, engagement, and impact.

INNOVATION

- The undergraduate curriculum was modified to include an expansion of the business core and addition of market-driven concentrations.
- Hull College leadership position was modified to lead and execute external engagement efforts.
- New courses were created and existing courses implemented technology enhancements to increase student engagement.
- Experiential activities and professional engagement were embedded within required courses.

ENGAGEMENT

- 6 faculty collaborated with other faculty members external to the Hull College on research projects.
- 7 faculty supervised and led undergraduate research projects.
- Multiple faculty served as content matter experts for local, regional, and national news outlets.
- 3 new programs were implemented to increase student and employer engagement: Business Showcase Series, CEO Series, and Executive-in-Residence.
- 6 faculty served as mentors and judges for events such as the Hull College Case Competition.
- Hull College representatives attended 80+ community events and meetings.
- 80% of courses engaged with local organizations with guest lecturers, class projects, presentations, and research projects.
- New partnerships were established with other University System of Georgia organizations such as the GA Tech Supply Chain Institute, the Georgia Tech Manufacturing Extension Partnership, the GA Tech Advanced Technology Development Center, and the UGA Small Business Development Center.

IMPACT

- 1 faculty member was appointed as an editorial board member for a scholarly journal.
- Faculty and administrators wrote columns for local newspaper and provide commentary in news outlets via blogs and social media.
- 10+ journal articles were published in peer-reviewed professional journals.
- 30+ professional development workshops were facilitated to local, regional, and state organizations.
- MBA students provided recommendations and solutions for 10+ organizations through their required MBA projects.

COLLEGE OF
SCIENCE & MATHEMATICS

"The best part about this department is the professors who truly encouraged me to do my best and helped me reach my full potential by the time I reached graduation."
—Hira H.

GRU

Your Career Starts Here:
Biological Sciences

Does diagnosing bacteria levels in local marine life fascinate you? Can you imagine being engrossed in genetic analyses of cells and molecules? Then slip on your wet boots, tune up your microscope, and join us. As one of GRU's largest undergraduate programs, the Department of Biological Sciences offers a wide variety of specialized courses, all aimed at preparing you for successful graduate study or a scientific career.

We Help You Succeed:

- Small class sizes and engaged and active faculty
- State-of-the-art lab and field experiences
- Opportunities to join faculty in their research
- Opportunities to present and be recognized at research conferences
- Wide variety of scholarship opportunities

Where Will You Be In Four Years?

Many of our Biology, Ecology, and Cell & Molecular Biology majors go on to graduate study at our affiliated comprehensive health sciences university and other nationally ranked institutions, enjoying careers in:

- Medicine
- Dentistry
- Pharmacy
- Allied Health Professions
- Microbiology and Ecology
- Veterinary Medicine
- Research

Fast Track: BS/MD or BS/DMD Degrees

Want to become a doctor or a dentist? If you meet certain requirements, our innovative BS/MD or BS/DMD degrees give you the opportunity to earn your bachelor's and medical or dental medicine degrees in only seven years, through a partnership with our affiliated health sciences campus.

"A sense of community among students, interactive and challenging laboratory work, and faculty with an open-door policy gave me everything I needed to succeed."
—Nate H.

The faculty is top notch and they help students learn and succeed in science.
—April H.

GRU
GEORGIA REGENTS UNIVERSITY
AUGUSTA

COLLEGE of
SCIENCE & MATHEMATICS

Upon graduation, full-time, active-duty starting salaries begin at \$52,000.

GRU

Your Career Starts Here:
Military Science

With its focus on both physical and mental fitness, military leadership prepares you for life like no other discipline. Since 1974, the Department of Military Science at GRU has helped scores of students succeed professionally and personally through Army ROTC. Army ROTC is one of the only college programs that teaches leadership and management, both in the classroom and on the field – experience that makes any ROTC graduate attractive to future employers.

We Help You Succeed:

- Tools, training and experiences for success in
- Generous 2-, 3-, or 4-year scholarship and stipend opportunities to pay all or part of your college tuition
- Leadership-specific training, including leadership development, ethics, and problem solving
- A ready-made career as an officer in the U.S. Army following graduation

Where Will You Be In Four Years?

Students participating in ROTC programs become commissioned officers in a branch of the U.S. Army, Army Reserves, or Army National Guard in fields such as:

- Medicine
- Allied Health
- Nursing
- Legal Affairs
- Communications
- Security
- Human Resources
- Aviation
- Engineering

Fast Track: Minor in Military Science

A minor in military science teaches skills vital for professional success on or off the battlefield, including group leadership, management, and public speaking, and are designed for students planning a career in the U.S. Army as a commissioned officer.

Army ROTC is an elective curriculum that you take along with your required college classes. Any student in any major can participate.

Students interested in Army ROTC can start by taking the ROTC Basic Course during their freshman and sophomore years; enrolling does not obligate you to serve unless you have also received a scholarship.

Health Sciences at Augusta University

AUGUSTA
UNIVERSITY

With locations throughout Augusta and at satellite campuses in Athens, Albany, Rome and Savannah, the university's has a truly statewide impact in Georgia. A critical focus of the university is to improve the health of Georgians, and students have the opportunity to be close to the action and engage with health sciences professionals daily.

Home to the Medical College of Georgia, one of the nation's largest and oldest medical schools, the university's Health Sciences Campus is at the forefront of health care innovation. Located in beautiful downtown Augusta and housing the state's largest College of Nursing, the comprehensive College of Allied Health Sciences, The Graduate School and the state's only dental school, The Dental College of Georgia, the Health Sciences Campus is also home to the state's only public academic health center.

Students are exposed to the innovation, research, and patient-care advances in today's health care environment first hand and can be engaged on day one.

Honors Program

AUGUSTA
UNIVERSITY

The Honors Program at Augusta University exists to provide all motivated and high-achieving students the opportunity to enhance their undergraduate education. We base our curriculum on three central educational goals—knowledge, communication, and professionalism.

Students are offered rigorous and creative core courses, unique, interdisciplinary seminars, and guided undergraduate research, scholarship, and creative activity that culminates in an Honors thesis. Throughout the curriculum, Honors students at Augusta University receive advising, instruction, and mentoring from Honors staff and faculty and the support to present their research at appropriate state, regional, and national conferences.

The Arts at Augusta University

AUGUSTA
UNIVERSITY

Students will engage with faculty and staff who share a deep commitment to developing the intellectual potential of students as they prepare for the global challenges of the ever-changing world.

Pamplin College at Augusta University provides distinct opportunities for students to create and share creative works. Experiential opportunities for growth, including undergraduate research, study abroad, internships, and community service are foundational to the liberal arts experience at Augusta University. Students graduate confident and ready to improve society. We offer many undergraduate degrees as well as select graduate and minor programs that allow our students to gain the knowledge and skills that will transfer to career success and creative fulfillment.

2013 | DIVERSITY and INCLUSION

FY 13 HIGHLIGHTS

Office of Diversity and Inclusion 2012-13 Annual Highlights
Georgia Regents University's Office of Diversity and Inclusion (ODI) promotes initiatives to create a diverse and inclusive environment and fosters practices that optimize the contributions of individuals. Below are a few highlights from our second year (July 2012-June 2013).

Organized Second Annual DIVERSITY SUMMIT
The purposes of the summit are to advance the dialogue about inclusion activities between interrelated organizations and to provide networking opportunities to build effective collaborations. Award-winning journalist, Soledad O'Brien, was the keynote speaker at the event that sold out with over 250 attendees. Dr. Connie Drisko (faculty) and Brett Heimlich (student) were acknowledged as the 2012 Diversity Award recipients.

CULTURE

Sponsored CULTURAL MONTH EVENTS
The ODI coordinated four cultural month events last year: Black History Month, Diversity Month, Asian-Pacific American Heritage Month, and Hispanic Heritage Month. All events were planned by faculty, staff, and students of GRU. Activities included games such as musical performances, art displays, participation in dragon-boat races, Tai Chi demonstrations, Tango and Salsa classes, and cooking demos sponsored by Sodexo*. These activities were attended by hundreds of community members, faculty, staff, students, and health system employees.

TRANSITION FORWARD

Participated in TRANSITION FORWARD
The new GRU strategic plan, "Transition Forward," includes a priority "to provide sustained commitment to diversity and inclusion across all missions." Our organizational goals are to (1) Develop practices and policies of inclusivity that are implemented and embraced across the enterprise, (2) Facilitate ongoing cultural competency development, and (3) Enhance efforts to reduce population disparities. This plan will ensure that the key performance indicators for diversity and inclusion are embedded throughout the enterprise.

GRU
GEORGIA REGENTS UNIVERSITY
AUGUSTA

Facilitated Enterprise-wide CULTURAL COMPETENCY TRAINING Healthy Perspectives
The primary goal of Healthy Perspectives is to provide students, faculty, and staff with the knowledge, attitude, and skills necessary to develop as culturally competent health professionals. The Georgia Regents enterprise is an industry leader in providing diversity and inclusion competency training that begins with new employee orientation and continues through annual compliance training opportunities. The student component, a six-week online, interactive course with a virtual simulation module, was piloted in Fall 2012. The Healthy Perspectives program is partially funded through a grant from the Healthcare Georgia Foundation.

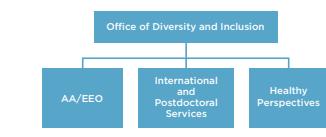

DIVERSITY

SCHOLARS

Provided DIVERSITY & INCLUSION LEARNING OPPORTUNITIES
The ODI provided diversity training for new GRU employees as part of the Start Wise orientation program and GRU new resident orientation. Additionally, sessions were conducted for UNC-Wilmington, National Collegiate Athletic Association headquarters in Indianapolis, Ind., and several GRU departments and colleges on both the Health Sciences and Summerville campuses.

Participated in SCHOLARLY ACTIVITIES
ODI staff participated in presentations at the Diversity Rx conference, USG Human Resources conference, NCA Inclusion Forum, Academic and Health Policy Conference on Correctional Health, Southern Sociological Society, Susan G. Komen Foundation, and GRU Education Day. Peer reviewed publications appeared in Women & Criminal Justice, Sociology of Work, Nursing and Health Science, and Health Care Manager.

HEALTHY RESPECT

Office of Diversity and Inclusion
AA/EEO
International and Postdoctoral Services
Healthy Perspectives

New ORGANIZATIONAL STRUCTURE
The ODI was reorganized to include the International and Postdoctoral services unit. This new arrangement aligns with a model recommended in "Strategic Diversity Leadership" (2013) by Damon Williams.

Journey on the road toward leadership development with your team ...

The Leadership Academy is offering 12, one and a half to two-hour leadership development courses for five to 50 employees at no cost and in your preferred location. These engaging sessions will enhance a department/unit meeting, grand rounds, annual retreat or professional development session.

CURRICULUM TRACK: LEADING SELF

- **Emotional Intelligence (EI) in the Workplace** – Based on EI research by Dan Goleman and Richard Boyatzis, this course focuses on developing self-awareness and resiliency as a leader.
- **Leadership Foundations** – Designed to help everyone understand why leadership development is so important.

CURRICULUM TRACK: LEADING OTHERS

- **Conflict and Difficult Conversations in the Workplace** – Skills-based course for handling conflict and difficult conversations in the workplace, including an introduction to the research, theory and practices of Crucial Conversations.
- **Presentation Skills: Your Style** – Learn how to shape your content and style to fit the audience.
- **Presentation Skills: The Mechanics** – Learn to create effective slides or tell a story without slides.
- **Giving and Receiving Feedback** – Avoid critical conversations by developing your skills to give and receive timely, fact based feedback.
- **The Gift of Multiplier Leaders** – Based on Liz Wiseman's book, *Multipliers*, the course focuses on how to be a multiplier of leadership abilities vs. a diminisher.

CURRICULUM TRACK: LEADING WITHIN THE ORGANIZATION

- **Mentors & Mentees** – Learn about roles, responsibilities and selection while practicing skills.
- **Coaching as a Leadership Strategy** – Using the GROW model, leaders/employees will learn how to coach others toward increased productivity.

CURRICULUM TRACK: LEADING FOR RESULTS

- **Executive Media Training 101** – Practice the fundamentals of a basic print or electronic interview.
- **Philanthropy for Physicians** – Discuss ethical guidelines, how to identify donor patients, and practice asking a patient to donate.
- **Business Acumen for Leaders:**
 1. **Project Management (Intermediate)** – PM skills for leaders who manage special projects/initiatives or plan events. This skill building will include tools to clarify project scope and goals, as well as develop skills for project tracking.
 2. **Leading and Managing Change** – Based upon the industry-leading practices of Prosci®, this course will lay the foundation for developing a skillset to lead change. Participants will learn hands-on tools to positively impact change within their department/unit.
 3. **Lean 101** – An introduction into an approach to running an organization that supports the concept of continuous improvement and incremental changes in processes to eliminate waste or improve efficiencies.

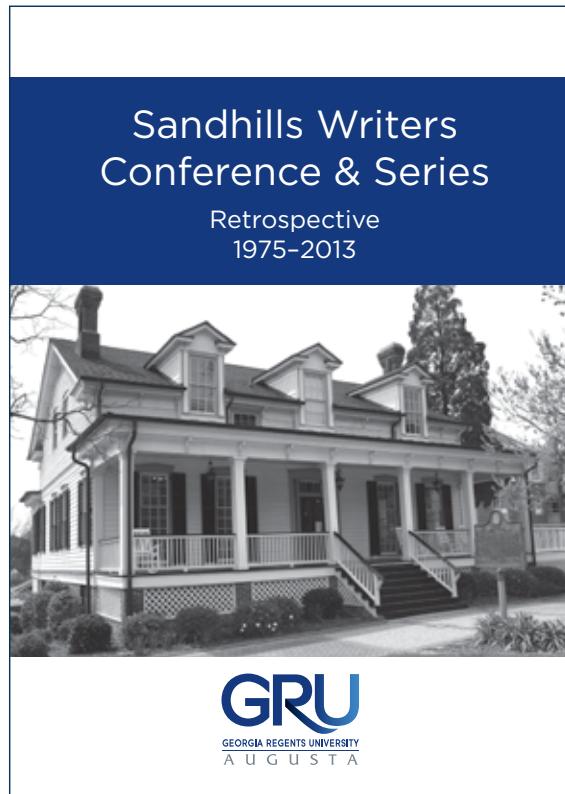

For full course descriptions, please visit augusta.edu/leadership.

To learn more about these offerings and schedule a course in your department/unit, please call **706-721-3096** or email lead@augusta.edu.

FOLLOW THE TRAIL OF...

The City of New Orleans

With stops in Chicago, Memphis, and New Orleans

May 13-22, 2015

With Terri Sasser and Dr. Suzanne Hall

Experience the sights and sounds of three of America's most fascinating cities as you learn to appreciate the music, cuisine, and culture each city has to offer. The trip includes a picturesque train ride on *Amtrak's City of New Orleans* from Memphis to New Orleans.

EXCURSIONS:

- Art Institute of Chicago
- Navy Pier
- Stax Museum
- Graceland
- Sun Recording Studios
- Preservation Hall
- Jazz Paddle Boat
- Dinner Cruise

A map of the study abroad route. It shows the state of Illinois with a yellow dot at Chicago and a white airplane icon. A dashed line extends south through Tennessee to a yellow dot at Memphis. Another dashed line extends further south through Louisiana to a yellow dot at New Orleans. The Gulf of Mexico is labeled at the bottom. The map also shows the state of Georgia and the city of Augusta.

MEMPHIS

CLASSES OFFERED

- SABR 3950:
City of New Orleans:
Sights and Sounds
Honors Seminar-3 hrs**
- SABR 3950:
Travel Writing-3 hrs**
- SABR 2950:
Special Topics in Music History-2 hrs**

Sponsored by

the Pamplin College of Arts, Humanities, and Social Sciences, the Department of Communications, the Department of Music, and the Honors Program.

2014-15 Season

The Second City

The Second City 55th Anniversary Tour
Sunday, October 12, 2014 at 7:30 p.m., Maxwell Theatre

Come see the superstars of tomorrow from the first name in comedy. Famous alumni include Tina Fey, Stephen Colbert, Steve Carell, Tim Meadows, Rachel Dratch, Mike Myers, Bill Murray, John & Jim Belushi, and so many more. The Second City stages and touring companies entertain over one million people per year.

*The Second City ALUMNI

"Brilliant" -Time Magazine

"Legendary" -New York Times "Comedy Powerhouse" -Chicago Tribune

Kevin Locke Native Dance Ensemble
Saturday, January 24, 2015 at 7:30 p.m., Maxwell Theatre

A blur of movement, visionary hoop dancing, powerful drums, dazzling fancy dancing, elegant traditional dancing, soaring powwow vocals, ancient flute songs, cultural insight, Northern Plains sign language, authentic stories of the First Nations — The Kevin Locke Native Dance Ensemble presents a performance to remember.

"...he crafts rhythmically entrancing, visually astounding statements about the human condition with ever-shifting tableaux of twirling hoops."
-The Washington Post

Christopher O'Riley, host of NPR's From the Top
with the GRU Orchestra and Womens' Choral Ensemble
Saturday, March 7, 2015 at 7:30 p.m., Maxwell Theatre

Known to millions as the host of NPR's *From the Top*, the most popular classical radio show ever, Christopher O'Riley is recognized for his eloquent and popular musings on music and popular culture. As a pianist, Mr. O'Riley has appeared with the Los Angeles Philharmonic, the Minnesota Orchestra, and the symphonies of San Francisco, Detroit, Atlanta, and Baltimore among others. With the triumphant release of *True Love Waits*, O'Riley's reimagining of works by Radiohead, he garnered critical accolades and international acclaim, including the only four-star review ever given by *Rolling Stone* to a classical pianist. A true cross-over artist, O'Riley has also arranged and performed pieces by R.E.M., Pink Floyd, Nirvana, and Elliott Smith.

"Infectious passion"
-Los Angeles Times

"...mingling their voices in a rich, intricately blended sound, their diction...as clear as a bell, their pitch so solid you could walk on it."
—Patrick Rucker, *The Washington Post*

Chanticleer

Saturday, September 30, 2017, 7:30 p.m.

Called "the world's reigning male chorus" by *The New York Times*, the San Francisco-based GRAMMY® Award-winning ensemble Chanticleer celebrates its 40th season in 2017-18. We are thrilled to have this truly exceptional group back this year to perform. Chanticleer is known around the world as "an orchestra of voices" for the seamless blend of its twelve male voices ranging from soprano to bass. The ensemble's repertoire consists of vocal literature, from Renaissance to jazz and popular genres.

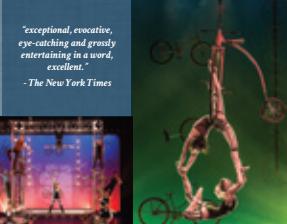

Cirque Mechanics: Pedal Punk

Monday, November 20, 2017, 7:30 p.m.

Enter the world of Pedal Punk, a Steampunk inspired place where cycling is the way to escape the technology obsessed society. An innovative bicycle mechanic creates wondrous machines. We are excited to visit his shop performing not only wacky creations, but also with acrobatic cyclists that will make your heart stop as they bring you into their world.

Cirque Mechanics based in Las Vegas, combines traditional circus disciplines with circus elements to tell a "real world" story with theatricality. However, it is the design and engineering of the mechanical apparatus and the relationship between performer and machines seen on stage, that truly make Cirque Mechanics unique.

"exceptional, evocative, eye-catching and grossly entertaining...a word, excellent."
—The New York Times

AQUILA THEATRE in William Shakespeare's Hamlet

Saturday, February 17, 2018, 7:30 p.m.

Hamlet is arguably Shakespeare's greatest play. It is a compelling tale of familial discord, personal ambition, love and revenge. Directed by Desiree Sanchez, Aquila's innovative use of movement, design, sound, and superb acting, vividly explores the depths of rage, madness, love and death brought about by a culture of obsessive emotionalism.

Aquila is one of the foremost producers of touring classical theater in the United States, visiting 50-60 American Cities per year. The Maxwell Theatre is looking forward to having them back again this year. Audiences may remember their production of Ibsen's *An Enemy of the People*. Aquila's productions of Shakespeare have been critically acclaimed by *The New Yorker* as "beautifully spoken, dramatically gripping and cryptically moving." The *New York Times* says that Aquila "makes Shakespeare perfectly comprehensible" and hails the company as "an extraordinarily inventive and disciplined outfit."

A Day of International Cinema and Culture

Saturday, April 14, 2018

Once a year for the past three years the Lyceum Series has partnered with the Cinema Series at Augusta University to explore the cinema and culture of one chosen country. We have thus far explored the cinema and culture of France, Italy, and Japan. If you are yet to attend a screening, now is the time to do so! Do not miss this special opportunity to experience the sights, sounds, and tastes of another country in this special Lyceum Series and Cinema Series collaboration.

**AUGUSTA UNIVERSITY
Maxwell Theatre**

Call the Maxwell Theatre Box Office at 706-467-4000 or visit augusta.edu/maxwelltheatre

Loyalty Series seating is RESERVED. For better seating, please order tickets in advance.

Most events at the Maxwell Theatre are free to Augusta University and East Georgia State College students and are often free or discounted for faculty and staff. Prices are affordable for the public, and discounts are often available for Augusta University alumni, military, other students and children. Please see the Maxwell Theatre website for price information.
